Removal of the old turnaround loop at Hazelgrove.

President's Message

This first week of March we have concentrated on several projects that will ensure that projects we have in the "pipeline" will continue to proceed.

A significant movement was concluded on Friday. Just before Christmas we were offered a right hand turnout and significant amount of rail from what was the EDI facility in Bathurst. The EDI facility was closed several years ago and purchased by Geoff Baxter who is developing the site for several manufacturing facilities.

Geoff donated the rail and turnout to OTHR on the condition that we dismantle it and remove it from the site. A few volunteers got "stuck into the dismantling part of the project and stacked in the yard at Bathurst".

Greg Bourne

President,

Oberon Tarana Heritage Railway Inc. Mission Statement

To be an accredited rail operator to run a tourist train from Oberon station to Tarana station on the main western line. This would allow for tourists to ride a heritage train along the Oberon Tarana branch line which was also known as the pioneer line.

Further, the running of this train would generate tourist related jobs in the Oberon area and give residents in the Oberon/Bathurst area an opportunity by volunteering at OTHR to enhance e rail heritage in the local area.

Network with other rail heritage groups and museums at Valley Heights, Lithgow, Zig Zag, Bathurst, and Cowra to form a Heritage Railway partnership to prioritise and promote the area as a Railway Tourist Precinct

Dismantling the track in Bathurst

Rail stacked in the yard at Bathurst

Southern Star Transport was contracted to pick up and deliver to the Hazelgrove site and that happened on Friday. A telehandler was dropped off at the Hazelgrove yard on Tuesday and another was on board in Bathurst for the shift on Friday.

Editor's thoughts

As you read this fine Newsletter, Oberon Tarana Heritage Railway Inc is adding the last touches to the Oberon to Hazelgrove (Stage 1) section of the rail. We now have a complete railway line between the two stations.

Volunteers are progressively restoring the carriages and locomotives and I'm sure you'll be impressed with the final result.

Planning is advanced for infrastructure at Oberon Station and we'll have a result for toilet facilities soon, that also meets modern standards as well as adding a touch of "Heritage" to the building.

We've gone behind the scenes again for the moment and are working towards certification of both the line and the rolling stock and looking at training of our volunteers to form a team to run rolling stock on the line.

Planning has begun to build a station at Hazelgrove that meets modern work safe practices and preserve heritage qualities as well.

Meanwhile, as we wave goodbye to COVID19 in all its forms, we are starting to welcome back visitors in the form of groups and associations who are again enjoying the ambiance of our Morning Teas, Lunches and High Teas in the Carriage Café at Oberon Station.

If you are the Events Manager of your association, please look for details of how you can enjoy the delights of OTHR and Oberon later in this newsletter.

It is the result of preparation, hard work and learning from your mistakes.

General Meeting

Bi-monthly General Meeting

Wednesday 12th April 2023

Oberon RSL, Dudley Street, Oberon
7.30 pm

Note: Bi-monthly General Meetings
are now scheduled for the 2nd
Wednesday of every second month.

Celebrating 25 years of World's Greatest Shave.

In 2023 the Leukaemia Foundation's World's Greatest Shave will celebrate 25 years – making it one of Australia's longest running and most iconic fundraising events.

People of all ages come together to shave, cut, or colour their hair – supported every step of the way by proud family, friends, colleagues, and classmates.

Some will have a personal connection to blood cancer, while others take part simply to have fun, tick something off their bucket list, and raise money for a good cause.

Your committee is strongly behind raising awareness for disorders such as Leukaemia and we would encourage you, the readers, to get involved.

Light at the end of the railway tunnel.

Peter Bowditch, Reporter Oberon Review.

“The rebuilding of the Oberon Tarana Heritage Railway has hit a major milestone, with the completion of the track itself. The final portion of the track has been laid to fill the gap between the Albion Street level crossing and Borg Gate 6, so the line now runs all the way from Oberon station to Hazelgrove.

“this is the beginning of the end” OTHR President Greg Bourne said. “ Now we have a railway line we can start doing all the things that still need to be done before we can carry passengers.”

A lot of the work that has to be done is bureaucratic. The line has to be certified to ensure it is safe, has been properly constructed or repaired and meets all the specifications for a passenger line. Similarly, the rolling stock has to be inspected by the appropriate certifying authorities to ensure it meets the required standards.

Much of the recertification inspection protocol has been done for the carriages, but there’s still some paperwork to be completed. One continuing activity is the ultra-sound examination of axles and other components to eliminate any flaws or cracks – as heritage items these are not newly built carriages and engines but have to perform and have safety as if they are.

Once the certification of track and rolling stock is completed it will come time to train the drivers. Train drivers just can’t jump into any train and drive it away. They not only have to know the intricacies of the particular locomotives and be licenced to drive them, but they have to be trained on the line itself. Even a driver with a lot of experience elsewhere, still has to learn this particular line.

Residents can expect to see some traffic on the line over the next few months, but it will be some time before the line opens for real tourist business.

“We hope to be carrying passengers by October” Greg Bourne said, “As this will be the centenary of the

railway we see it as an important, realistic and achievable goal.”

The revived line will be an important tourist attraction for Oberon”

Part of the “missing link” now back in place.

Group Visits Oberon.

Sunday 12th February last saw group visits get back into the swing with a visit from the Pittwater Motor Enthusiasts Association located on the Northern Beaches of Sydney.

26 visitors arrived for lunch after displaying their vehicles at the famous Gnoo Blas motor show in Orange, NSW.

Greetings at the gates and lunch was served by our events staff and station staff. Lunch consisted of a mini High Tea; our guests were blown away by the food and heritage surroundings being our Carriage Café drawn up to the station by one of our vintage locomotives.

Inspection of the OTHR Rolling Stock shed was in order and the members of the PMEA were most impressed by the restoration work occurring in the shed at the moment.

OTHR opened the Skoda and Tatra Register Museum for the group and once again the group was

thoroughly impressed by the small but extremely rare array of vehicles there.

Overall, the visit was thoroughly enjoyed by the members of the PMEA with surprises galore for them to witness.

David Toyne and John Boxer steamed up David's Steam Traction Engine for display at the entrance gate. This vehicle is now more than 100 years old.

A lovely Sunbeam Alpine owned by another PMEA member since 1964 and purchased in the UK.

David Toyne's Steam Traction Engine was on hand to greet our guests at the parking area gates.

Our Editor received the following email today (20th February):

We thoroughly enjoyed our visit and lunch at your Heritage Railway.

You and your fellow volunteers should be very proud of the restorations you have achieved.

We will certainly tell any of our travelling friends about it.

All the best,

John & Gaye Kaye.

There's movement at the station....

During the last few days, work has commenced in earnest at Hazelgrove, the Stage 1 railway destination.

The station name board and original concrete posts were removed for site leveling for the new station platform. These original concrete posts will be reinstated on the new platform.

Additional formation was laid down and graded for the new run around.

A local contractor performed grading.

We also had the grader open up the old track access track heading north from Black Bullet Road.

How to build the “Missing link”

Over a period of about 10 days our contractor CAM filled in the missing link between Albion Street and Borg’s Gate 6.

Base laid down on prepared path.

Base spread and rolled.

The next day sleepers and rail were laid on the east side of Lowes Mount road.

Sleepers and rail laid on to the east of Lowes Mount Road.

Contractor, CAM, next pinned down the missing link between Albion Street and Borg Gate 6. Final joining of the old and new track to be done, infill and tamping to correct road heights.

Brand spanking new line.

CAM was on site over the weekend pinning down the track . Approximately 400 metres of sleepers and track has been placed, plated and screwed.

Short Term Goals

A new range of goals to be achieved as soon as possible follows:

Immediate:

- **Continue the fit for use certification on the two locomotives and end platform cars.**
- **Vegetation Control in the Oberon yard and rail corridor to Hazelgrove.**

Ongoing to June 2023

Reconstruct and have the Oberon to Hazelgrove section of track certified.

Complete the process of ensuring the two locomotives and end platform cars are certified fit for use.

Work with ONRSR on the application for variation of accreditation to become a Rail Transport Operator Oberon to Hazelgrove. Continue the review of SMS and Operational Procedures documents.

Event Organisers....

There's so much to do in Oberon and surrounds. When puzzling about where your next extended run should go, give Oberon a thought.

Located in the New South Wales Central Tablelands and about 180K from Sydney, Oberon punches above its weight when it comes to attractions and points of interest.

Apart from the Oberon Heritage Station Precinct now hitting its straps, there are another four interesting museums covering all sorts of genres and each guaranteed to please your members, the stunning Mayfield Garden close to town and another small but spectacular garden located in town open subject to seasons.

Jenolan Caves is now only accessed via Oberon and advice concerning access should be sought from either Oberon Tarana Heritage Railway Inc or the Oberon Visitor Information Centre.

There is Oberon's fantastic park in the town centre, "The Common" and Lake Oberon just a couple of kilometres out of town; both have sites suitable for a display as does the Oberon Tarana Heritage Railway Inc. All sites have inviting and varied backdrops.

Runs are catered for with the Oberon Visitor Information Centre having produced a series of maps of our back roads and range from approx. 30Ks to 300Ks starting and finishing in Oberon and all on sealed roads.

Accommodation is no problem for small groups up to say 60, but for larger groups advice should be sought from Oberon's Visitor Information Centre. Tasty food is available ranging from traditional Café style or Pub Food through to Bistro style or even an upmarket restaurant at Jenolan Caves. There are fabulous country pubs and cafes scattered throughout the district at places like Tarana, Hampton, and Rockley.

Discuss partaking in the famous OTHR gourmet "Fettler's Lunch" or morning tea in the pop-up Carriage Café. OTHR caters to groups from 10 upwards for a meal in a unique "olde worlde" setting.

As Oberon is situated mid-way on "The Tablelands Way" cities and towns such as Goulburn, Crookwell,

Taralga, Bathurst, Orange, Sofala, Rylstone, and Mudgee, are within an easy day's drive even allowing for site-seeing along the way.

Have a chat to Dave McMurray from OTHR on 0408 606 889 first up to find out how you can plan a few days or a week in Oberon.

Sleeper Club

Oberon Tarana Heritage Railway Inc's Sleeper Club is a wonderful way of contributing to the rebuilding of our great project.

When investing in a sleeper you'll receive a Certificate noting your purchase and this can make a wonderful and unique gift for any rail buff, your family, or friends. A great idea for Birthdays, a Special Event or even Christmas.

 Draw No 2 was won by David Laing of Wollongong, NSW

Sponsors

Seeking funding continues to be one of your committee’s priorities.

Sponsorships are an especially important part of the funding of our activities. It matters not whether a

person or company contributes cash or kind, each will be considered as a sponsorship. The reason is that any person or company that contributes in kind is helping us in as much as we don’t have to pay for those services and the sponsor is foregoing income. The committee needs to seek cash sponsors and this task is ongoing.

We now have seven sponsors on board, all sponsors offer in kind support for which we are extremely grateful.

Would you like to become a sponsor? Contact President Greg to find out how you can participate in OTHR’s exciting sponsorship deals. There are a few sponsorship levels available. By sponsoring OTHR and its vision you will become a partner of the programme.
